## Question: 1

Which of the following can be supported by Policy Center access control? (Choose three.)

- A. Hardware SACG (hardware security access control gateway)
- B. 802.1X
- C. ARP control
- D. Software SACG (host firewall)

**Answer: A,B,D**

## Question: 2

SSL VPN supported file sharing types can be divided into two kinds of SMB and NFS, SMB correspond Windows hosts, NFS correspond Linux host

- A. True
- B. False

**Answer: A**

## Question: 3

Which user authentication methods can be supported by Policy Center system? (Choose three.)

- A. IP address authentication
- B. MAC address authentication
- C. Ordinary ID/password authentication
- D. LDAP authentication

**Answer: B,C,D**

## Question: 4

---

Network administrators set up networking as follows:

LAN\_A ----- (G0/0) USG\_A (G0/1) ----- (G0/0) USG\_B (G0/1) ----- LAN\_B

USG\_A divides firewall security zones, connects LAN\_A areas Trust, connects USG\_B area's Untrust, according to the above description, which of the following statement is correct?

- A. USG\_B G0/0 must join Untrust zone
- B. USG\_B G0/0 must join the Trust zone
- C. USG\_B G0/1 must join the Trust zone
- D. USG\_B G0/0 can join any regional

**Answer: D**

### Question: 5

In the first stage of IKE negotiation, which of the following IKE exchange mode does not provide identity protection features?

- A. Main Mode
- B. Aggressive Mode
- C. quick mode
- D. passive mode

**Answer: B**

### Question: 6

Which of the following encryption algorithm, encryption and decryption keys are the same?

- A. DES
- B. RSA(1024)
- C. MD5
- D. SHA-1

**Answer: A**

### Question: 7

Policy Center system can implement two dimensions' management functions: organizational management and regional management

- A. True
- B. False

**Answer: A**

### Question: 8

What does USG products business include? (Choose three.)

- A. Web Proxy
- B. Network Expansion
- C. Port sharing
- D. File Sharing

**Answer: A,B,D**

### Question: 9

Which of the following components do consist of Policy Center system? (Choose three.)

- A. Anti-virus server
- B. SC control server
- C. Access control equipment
- D. SM management server

**Answer: B,C,D**

### Question: 10

In IPSEC VPN, which of the following scenarios can be applied by tunnel mode?

- A. between the host and the host
- B. between hosts and security gateways
- C. between security gateways
- D. between tunnel mode and transport mode

**Answer: C**

---

### Question: 11

Which of the following are included in the operating system patch violations level of Terminal security system? (Choose two.)

- A. Low
- B. Important
- C. Serious
- D. General

**Answer: C,D**

### Question: 12

What does ACL 2999 belong to?

- A. Basic Access Control Lists
- B. Advanced Access Control Lists
- C. Access control list based on MAC address
- D. Time-based access control list

**Answer: A**

### Question: 13

Which of the following scenarios does not support by IPSEC WEB configuration of USG6000 series firewall? (Choose two.)

- A. Gateway to Gateway
- B. Gateway Center
- C. Branch Gateway
- D. Host and Host

**Answer: B,D**

---

### Question: 14

What port numbers may be used by FTP protocol? (Choose two.)

- A. 20
- B. 21
- C. 23
- D. 80

**Answer: A,B**

### Question: 15

Some applications, such as Oracle database application, there is no data transfer for a long time, so that firewall session connection is interrupted, thus resulting in service interruption, which of the following technology can solve this problem?

- A. Configure a long business connection
- B. Configure default session aging time
- C. Optimization of packet filtering rules
- D. Turn fragment cache

**Answer: A**

### Question: 16

Which of the following option belongs to DES key length?

- A. 56
- B. 64
- C. 128
- D. 192

**Answer: A**

### Question: 17

---

Terminal security access control can support? (Choose three.)

- A. SACG hardware (hardware security access control gateway)
- B. 802.1X
- C. ARP control
- D. Software SACG (host firewall)

**Answer: A,B,D**

### Question: 18

What are the main security capability of encryption service? (Choose three.)

- A. Confidentiality
- B. Integrity
- C. Non-repudiation
- D. Scalability

**Answer: A,B,C**

### Question: 19

When Layer 2 switches (not configured VLAN) receiving a data frame, of no match is found in the MAC address table, it will forward the data frame to all ports (including Layer 2 switches receiving port).

- A. True
- B. False

**Answer: B**

### Question: 20

How to view the matching number of security policy?

- A. display current-configuration
- B. display policy all
- C. display startup saved-configuration
- D. display device

---

**Answer: B**

**Question: 21**

VPN tunnel technology refers to through encryption algorithm (such as DES, 3DES) to achieve data transmitted in the network will not be intercepted.

- A. True
- B. False

**Answer: B**

**Question: 22**

Which VPN access modes are suitable for mobile office workers? (Choose three.)

- A. GRE VPN
- B. L2TP VPN
- C. SSL VPN
- D. L2TP over IPsec

**Answer: B,C,D**

**Question: 23**

In the GRE configuration environment, which of the following interface or IP address is the local GRE device configuration of the end private network route required to point to? (Choose two.)

- A. Tunnel Interface
- B. External networks (Internet) Interface
- C. Tunnel interface IP address
- D. External network (Internet) interface IP address

**Answer: A,C**

**Question: 24**

---

Which of the following belongs to multi-channel protocol?

- A. FTP
- B. Telnet
- C. HTTP
- D. SMTP

**Answer: A**

### Question: 25

What problem does IPsec IKE aggressive mode mainly solve?

- A. solve the problem of slow negotiation on both ends of the tunnel
- B. solve the security problem in the process of negotiation
- C. solve NAT traversal problem
- D. solve because of uncertain originator source address cannot select pre-shared key problem

**Answer: D**
