Question: 1

What relation does scrum have to development practices?

- A. Scrum requires a specific set of development practices
- B. Scrum is complemented by good development practices
- C. Scrum requires all development practices
- D. Scrum has no relationship to development practices

Answer: B

Explanation:

Scrum requires no development practices, but good development practices do help and make scrum more successful.

Question: 2

Database design must be complete before coding starts to ensure a solid foundation

- A. False
- B. True

Answer: A

Explanation:

The design grows as more is learnt.

Question: 3

What is a merge in a version control system?

- A. Identifying a particular codebase as ready for distribution
- B. Combining two or more versions of code into a single codebase
- C. Copying a portion of a codebase to isolate it from the original codebase
- D. Two or more developers working together to ensure proper coding and configuration management

Answer: B

Explanation:

Merging means combining two different versions of the code into one version.

Question: 4

In software development DRY refers to:

- A. Code with low cyclomatic complexity
- B. Code with minimal duplication
- C. Code that has not been peer reviewed (yet)
- D. Code that has been peer reviewed

Answer: B

Explanation:

DRY, don't repeat yourself

Question: 5

Who is responsible for a sprint backlog item that contains several database tasks?

- A. The developers
- B. Product owner
- C. The company's database specialist
- D. Scrum master

Answer: A

Explanation:

Developers are responsible for conducting the work on the sprint backlog
